Skills

- **Programming:** Java, Advanced Java, JavaScript, Python
- **Frontend:** HTML, CSS, JavaScript, Angular, React, Tailwind CSS
- **Backend:** Spring Boot, JDBC, REST APIs, API Calling
- **Database:** MySQL
- **Core Concepts:** OOP, Data Structures and Algorithm, DBMS, API Integration
- **Soft Skills:** Communication, Problem Solving, Team Collaboration

Projects

- **Small Business Invoice & Billing Portal** Feb 2026 – May 2026
Tech: React.js, PHP, MySQL, Tailwind CSS, REST APIs
 - Developed a full-stack billing and invoice management system for small businesses.
 - Implemented authentication, client management, invoice generation, and payment tracking modules.
 - Built REST APIs for CRUD operations and integrated frontend with backend services.
 - Designed responsive UI using React.js and Tailwind CSS and managed relational database operations using MySQL.
- **EcoMine Smart Vehicle** June 2025 – Jan 2026
Tech: ESP32, Embedded C/C++, Arduino IDE, IoT, Telegram Bot API, Google Apps Script, Streamlit
 - Built an **IoT-enabled autonomous safety vehicle** with fire, gas, temperature-humidity, and metal detection sensors.
 - Enabled **Wi-Fi communication and Telegram Bot integration** for real-time alerts and GPS-based tracking.
 - Developed **cloud-based logging** using Google Sheets for real-time sensor data storage.
 - Designed **interactive dashboards** for visualization and AI-driven safety insights.
- **Streamlit Based AI-Assistant For Data Science** Sept 2024 – Jan 2025
Tech: Python, Streamlit, Pandas, NumPy, Plotly, Matplotlib, Seaborn, scikit-learn
GitHub Repository
 - Developed an **interactive dashboard** to analyze CSV datasets with automated summaries and visualizations.
 - Integrated an **NLP-based chatbot** to answer dataset-related queries in natural language.
 - Implemented **dynamic charts, encoding techniques, and downloadable reports** for enhanced data insights.

Experience

- **Tap Academy** Feb 2026 – Present
Full Stack Development Intern
 - Completed hands-on training in **Java, Data Structures, and Full Stack Development**.
 - Built practice projects using **Java, SQL, HTML, CSS, and JavaScript**.
 - Improved communication and problem-solving skills through coding discussions and technical presentations.
 - Strengthened problem-solving skills through coding exercises and real-world application development.
- **Edutainer** Feb 2026 – May 2026
Web Development Intern
 - Developed responsive web pages using **HTML, CSS, and JavaScript** following modern UI/UX practices.
 - Worked with **JavaScript concepts** such as arrays, objects, functions, and ES6 features.
 - Designed and structured applications using **component-based architecture**.
 - Gained hands-on experience in **REST APIs and backend integration concepts**.
 - Implemented **CRUD operations** and understood database interaction using SQL.
 - Applied **problem-solving and debugging techniques** through assignments and mini-projects.

Achievements

- Awarded **Best Project of the Year** for AI Assistant at the **48th Student Project Program** organized by KSCST, IISc Bangalore.
- Selected for exhibition at SPP supported by the **Department of Science and Technology, Govt. of India**.

Education

- **B.E in Computer Science**
Government Engineering College, Ramanagara.
CGPA: 8.67 2022 – 2026
